

Comfort Care *When* It's Needed

Over the past forty years, we have grown from one small hospice program in Anne Arundel County into a family of specialized organizations and programs which serve Anne Arundel, Charles and Prince George's counties.

Comfort Care *Where* It's Needed

At first, there was only home hospice care. Today, most of our patients still choose to receive routine hospice care in their homes, surrounded by the people and things they love. However, we've expanded to provide care in local hospitals, assisted or senior living communities, and skilled nursing centers throughout Anne Arundel, Charles and Prince George's counties.

We also operate two homelike and state-of-the-art inpatient care centers.

The Rebecca Fortney Inpatient Care Center in Pasadena is a 14-suite inpatient care center that opened in 2015.

The Charles County Inpatient Care Center in Waldorf is an 8-suite inpatient care center in a home-like setting.
